

EXCELLENCE IN ENTREPRENEURSHIP AWARDS

Lyndon Group LLC, Newport Beach
Ken Jones, Managing Director

Jones formed the Lyndon Group in 2000 to provide publicly held and emerging growth companies with sophisticated accounting and financial management consulting services. Under his leadership, the firm has grown steadily, recently tripling in size and sales volume.

With a specialty in working with clients during transition periods, Lyndon Group often assists during M&A or funding periods. In January, Jones launched a technology partnership with Parse Automation Corp., which provides real-time performance management software to manufacturing companies. Lyndon Group is the first certified partner for Prasec's TrakSYS software in Southern California and hopes to leverage that into growth in the manufacturing sector.

Jones understands the value of an exceptional workforce and assembled a team of professionals from Big 4 accounting firms and high-level professionals from the private sector. He has built a distinctive corporate culture and encourages employees to balance work and life issues.
